MANAGEMENT DISCUSSION & ANALYSIS REPORT

OUTLOOK & OVERVIEW OF THE ECONOMY

India will continue to benefit from low global commodity prices which has helped rein in inflation and encourage consumer spending. Focus on urbanization, smart city program and improvement in infrastructure along with implementation of policy reforms to iron out the regulatory issues in the area of taxes and approval related functions need to be prioritized by the government. This will encourage private sector investment, creating the platform to utilize the country's advantageous demographic potential and lay the foundations for real GDP growth to move to higher levels.

On unexpected lines, Demonetization wiped off 86% of the cash money overnight. This had profound impact on the economy especially in the real estate sector. Third quarter's performance bears testimony to the same, as most of the developers faced difficulty including your company.

Further as per Economic Survey 2016-17, India's economic growth is estimated to slow 7.1 percent in the current fiscal year ending March 31, 2017 compared to 7.6 percent last year, the first indicator of the impact of the demonetization drive. Real estate demand has been lacklustre over the last 3-4 years due to several factors. Demonetisation is expected to further dampen demand and negatively impact prices in the sector, in the short term.

The Financial Year 2016-17 with its eventful ups and down has come to an end. The Parliament approved RERA Act which is bound to have huge transformational impact on the real estate sector. GST is another significant reform which will subsume all indirect taxes and pave way for a single market across India. The real estate sector should see some benefits on absorbed costs like cement, steel and other building materials.

The Government has taken measures to revive the economy by modifying FDI policies for various industries, pushing hard for infrastructure spending and towards creating smart cities. Reforms to create flexibility in labour markets, safety net for the unorganized sector and passing of GST to create a common market will go a long way to take the growth momentum to a different level.

Reserve Bank of India's Policy seems to be heading towards creation of a stable, low inflation regime. The Reserve Bank of India (RBI) has started to lower the interest rates as well as increase the liquidity in the economy by taking various initiatives.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Indian real estate sector is one of the most globally recognized sectors. In the country, it is the 2nd largest employer after agriculture and is slated to grow at a massive pace over the next decade. The growth of this sector is well complemented by the growth of the corporate environment and the demand of office space as well as urban and semi urban accommodations.

The Government's Smart City development approach will further boost the growth of the sector. Various ancillary industries such as cement, steel, brick, timber, building materials etc. are dependent on the real estate industry.

India has huge potential to attract large foreign investments into real estate. With real estate reaching a point of saturation in developed countries and the demand and prices falling, global real estate players are looking at emerging economies such as India for tapping opportunities in real estate. Indian real estate will stay attractive due to its strong economic fundamentals and demographic factors.

The steps taken by the Union Government are in the right direction. The underlying purpose of RERA is to bring

transparency and information to the consumer, timely delivery, and financial discipline in management of customer advances. Demonetisation will reduce black money in real estate transactions and therefore reduce unscrupulous deals. RERA coupled with demonetization will make buying and selling homes transparent and easier. The industry will ultimately become more organized and better regulated.

The Union Budget 2017 is a very encouraging and favourable budget for real estate industry. The infrastructure status would certainly help the real estate entities with impeccable governance practices to raise funds at substantially better interest rates. The practical amendments to avail of Income tax benefits on carpet area basis introducing during last union Budget for affordable housing scheme is a welcome step. The credit linked subsidy scheme for first time home buyer under Pradhan Mantri Awas Yojana (PMAY) should provide a positive push for real estate demand for the mid income group.

COMPANY STRENGTHS

Promoters and senior management's focus is on Project Planning and Execution for delivering present-day design and quality construction.

The Project management team comprises of experienced, highly qualified experts who had a proven experience in their functional areas. The team drives the organization through their contribution. The organizational framework has been designed to manage the design, engineering, procurement and execution of concurrent, multi-site projects keeping a focus on delivery of developments of International standards.

OPPORTUNITIES AND THREATS

Opportunities

The Company believes that there are lots of opportunities and demand in Indian Real Estate Sector. Some of them are as under:

- Real Estate Investment Trusts (REITs): The Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 facilitate tapping of cash flow in the Indian economy, and help smaller investors access income-generating real estate assets.
- Smart cities: Government proposal to develop smart cities, to offer sustainable development and employment to a wider section, regardless of skill, education, or income level.
- Relaxation in rules for foreign direct investment in the sector. Some of these relaxed rules include reducing minimum built-up area and capital requirement for the projects receiving FDI.
- Economic activity is gradually picking up.
- Office rents to start appreciating.
- Increase in Floor Area Ratio by the Department of Town & Country planning, Haryana.
- More international retailers to venture into India, which would result in high demands.
- The company has carved a niche for itself in the luxury and ultra luxury segment by differentiating itself in each micro-market through product positioning for each product to attract customers.
- Home loans will become cheaper.
- Demonetisation along with RERA will make the industry more customer friendly and increase trust.
- Demonetisation will increasingly formalize the economy and the industry.

- Increase in the size of affordable housing
- Reduction in holding period: The holding period for capital gains on sale of immovable property—land and building—to qualify as long term capital gains (LTCG) is proposed to be reduced to 2 years from 3 years in the Union Budget 2017. These steps are expected to reduce the capital gains tax burden on property sellers and thereby make movement of immovable capital easier. Investors who were holding on to properties will benefit from this reduction in tenure.
- Capitalgains on Joint Development Agreements: For development of properties through Joint Development Agreements, the liability to pay capital gains tax will be in the year after the project is completed. This is likely to reduce the disputes in joint development projects. Changes in the taxation aspect of JDAs, will greatly encourage more land owners to partner with developers.
- Reduction in tax rate: The Finance Minister reduced the income tax rate from 10% to 5% for the slab of Rs. 2.50 lakhs to Rs. 5 lakhs. Savings in tax coupled with the lower interest rates will make buying homes more affordable for the consumers and this can help in further improving the sales in the housing sector.

Threats

Some of them are as under:

- Increase in Interest costs and foreign currency rates.
- Unanticipated delays in project approvals.
- Unstability in the government policies.
- Environmental issues.
- Taxation issues.
- Rising cost of construction such as steel, cement, power etc.
- Rise in competition.
- Increase in Input costs.
- Reduction in supply – RERA and demonetization will have a midterm effect on reduction of supply.
- Lower liquidity likely to impact demand, construction progress and secondary market transactions.

In the long term, the demonetization along with implementation of Real Estate Regulation Act and single-window clearance system will be positive for the sector leading to higher transparency and investors' confidence.

23. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation of financial statements

These financial statements are prepared under the historical cost convention, on accrual basis, except where otherwise stated and with all material aspects of Generally Accepted Accounting Principles (GAAP). GAAP comprises mandatory accounting standards as prescribed under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Companies Act, 2013 (to the extent notified). The accounting policies have been consistently applied by the Company except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the result of operations during the reporting period.

Accounting estimates are based upon past experience, present realization and future presumptions and could change from period to period. Actual results could differ from these estimates.
